

MAINTRACE®

MAINTAINING TRACEABILITY

Total asset life-cycle and total cost of ownership are available at the touch of a button.

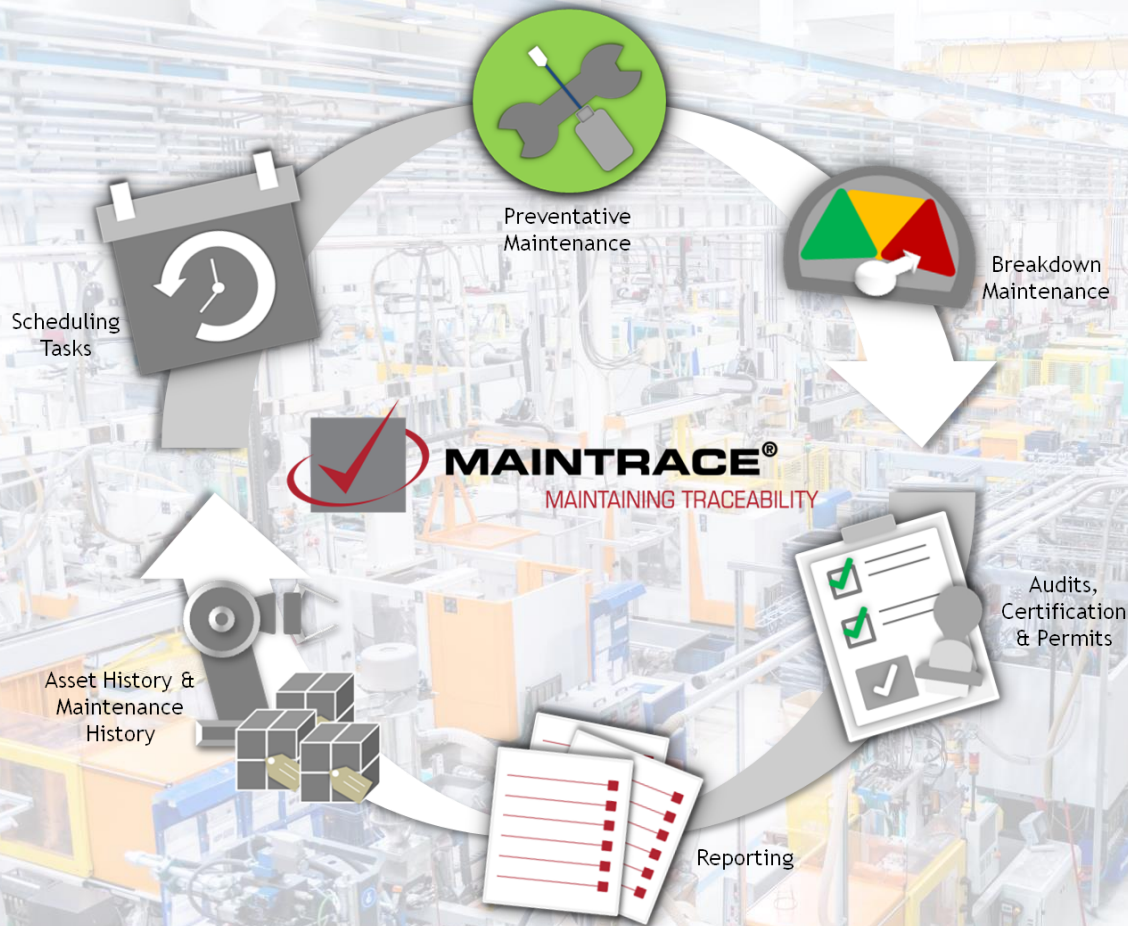

MAINTRACE®
MAINTAINING TRACEABILITY

PharmaGuardTrace™
MAINTAINING PHARMACEUTICAL CONFIDENCE

SHP®, SHP Automation®, SHP Angel®, SHP Junior®, Maintrace®, SHP i-View® and The Academy at St John's® are all registered trademarks of SHP Automation Ltd.
PharmaGuardTrace™ is a trademark of SHP®, and while it is not yet officially registered, we reserve all rights to its use.

Maintrace® is a Computerised Maintenance Management System (CMMS) that is designed to simplify and improve the Maintenance and Traceability of your process plant assets and equipment.

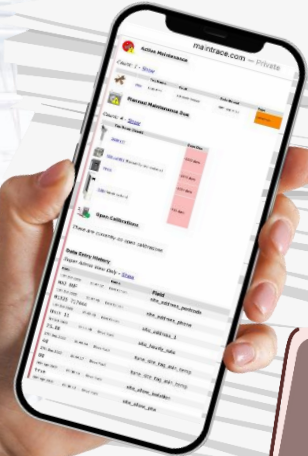

It covers the calibration of instruments and logs the entire asset history.

Keeping it all secure
on the cloud

Every physical asset goes through a life-cycle beginning with its conception and ending at its disposal. In every phase of the life-cycle numerous errors and mistakes can occur that leave defects within the asset to eventually leading to breakdowns, losses and wastage during operation.

Our CMMS allows you to schedule the maintenance tasks of your assets and can automatically calculate the recommended maintenance intervals.

Maintrace® is operated through any simple web browser making it accessible from any internet ready device so you can access your documents digitally.

Time and financial resource reports can be generated based on individual assets and plant areas. You can produce and store all calibration records for your assets eliminating the need to adopt complicated filing and record keeping of numerous paper documents – *previous maintenance and calibration history is available at the click of a button saving you time locating paper documents during audit periods.*

About Us

We are a privately owned family business that is based in the North West of England, specialising in all aspects of automation, instrumentation and electrical control systems.

Established in 2003 as an onsite service provider to the process automation and control industry, we have evolved into a leading multi-skilled control systems integration company.

SHP® Automation Limited is a well-established company that focuses in a diverse range of industrial sectors including:

**Chemical / Petrochemical / Oil & Gas / Offshore /
Pharmaceutical / Food / Utilities / General Manufacturing**

We provide a comprehensive portfolio of services to satisfy our customer's control and automation requirements which include: **System Design and Build / Onsite and Ongoing Maintenance Support Services / PLC, SCADA and DCS Integration / System Migration and Consultancy / Electrical Control & Instrumentation Supply and Repair / Automation and System Training / Bespoke Panel Builds**
